CONTENTS

J.F. LERBEKMO and N. LEHTOLA
Magnetostratigraphy of the Bearpaw and Blood Reserve formations
on the St. Mary River: Evidence for the effect
of the Sweetgrass Arch ................................................................. 1

G.R. DIX and C. JOLICOEUR
Tectonostratigraphic framework of Upper Ordovician source rocks,
Ottawa Embayment (eastern Ontario) ............................................ 7

R.T. LEMISKI, J. HOVIKOSKI, S.G. PEMBERTON and M. GINGRAS
Sedimentological, ichnological and reservoir characteristics of the low-permeability,
gas-charged Alderson Member (Hatton gas field, southwest Saskatchewan):
Implications for resource development ........................................ 27

R.T. LEMISKI, J. HOVIKOSKI, S.G. PEMBERTON and M. GINGRAS
Sedimentological, ichnological and reservoir characteristics of the low-permeability,
gas-charged Alderson Member (Hatton gas field, southwest Saskatchewan):
Implications for resource development ........................................ 27

JAMES DIETRICH, DENIS LA VOIE, PETER HANNIGAN, NICOLAS PINET,
SÉBASTIEN CASTONGUAY, PETER GILES and ANTHONY HAMBLIN
Geological setting and resource potential of conventional petroleum plays
in Paleozoic basins in eastern Canada ........................................... 54

CITATIONS .................................................................................. 85
